ENGINEERED FOR RIDING

COMMUNICATION SYSTEMS

Bluetooth Communication System

HANDS FREE INTERCOM

The new SHAD Bluetooth® communication systems are specially designed to offer a safe riding, as they allow you to communicate in a completely legal way while riding, making your trip safer and more entertaining.

Receive your calls in an easy way while riding your scooter or motorcycle with the SHAD hands-free set using just one multifunction button or simply with a “Hello”. It is a system compatible with all Bluetooth® audio devices: mobile phones, Smartphones, GPS, and others.

Easy to install, the system is designed to be completely integrated in your helmet. Four models available: BC01, BC02, BC22 and BC03.

BC22.- Hands Free Kit Smartphone/GPS/Music

BC22 (Ref.: X0BC22)

BC22 offers an easy hands-free connectivity for Bluetooth smartphones and navigation systems and it comes with a twin earphone to listen to your favorite music. Designed for those that use a full-face helmet, as the flexible intercom cable allows it to be better mounted in the helmet. Moreover, the BC22 provides voice answering function and dual Link system, which keeps connected to your phone even when connected as intercom with the model BC03.

Features:

- Compatible with multiple Bluetooth devices
- Hands Free connection to Smartphone/GPS
- Flexible cable
- Twin earphone
- Voice answering
- Music playback
- Intercom pilot-passenger (requires one BC03)
- Dual Link
- Battery life in Stand-by mode up to 200 hours
- Conversation up to 7 hours
- Proper operation up to 80 km/h
- Up to 10 meters range
